MONTEREY BAY INN  
242 Cannery Row  
Monterey, California 93940

The oceanfront, contemporary Monterey Bay Inn is located on the water and overlooks the national Marine Sanctuary, one of the world's richest marine regions. The Monterey Bay Inn has earned a national Green Seal Silver Certification for waste minimization, water and energy efficiency, hazardous substances handling, and environmentally responsible purchasing.

Sleekly designed, the Inn marks the entrance to Cannery Row, and its décor reflects the vitality of the sea. Located down the street from the Monterey Bay Aquarium and close to shops, restaurants, and countless opportunities for outdoor recreation, this property is ideal for guests who enjoy a variety of activities.

### **ACCOMMODATIONS**

The Inn's 49 rooms, most with stunning ocean views and private balconies provide a ringside seat to the ever-changing show put on by the ocean. In room binoculars offer a close-up look at the amazing scenery. Guest room amenities include king size feather bed, mini-refrigerator, expansive bathrooms, nightly turndown service, complimentary Wi-Fi, flat screen TV with DVD player, CD player, coffee maker, bath robes, hair dryer and other amenities. Some guest rooms include a gas fireplace. Each morning a bountiful continental breakfast is delivered to the guestroom, and freshly baked cookies are served in our lobby every afternoon. Room service is also available.

A lovely rooftop hot tub with panoramic ocean views contributes to a relaxing stay, while an outdoor terrace fire pit provides warmth on foggy evenings. A variety of massage- and spa-services are offered in-room or at the Inn's Serenity relaxation room, along with a dry sauna and showers. On-property, covered parking is available, and most important, beach access is only a few steps away.

### **CONFERENCE SERVICES:**

The Monterey Bay Inn's boardroom has been completely renovated to provide the ideal setting for groups of up to 20 people. Recent meeting room updates include a new modular table with built in outlets, with the flexibility to configure both a conference and classroom-style set up. Adjustable, high-back swivel chairs add to the comfort of the space, while two large sliding glass doors that open to a balcony provide plenty of natural light.

A newly renovated outdoor terrace offers a picturesque setting for a lunch or a pre-dinner reception. Saltillo tile, new patio tables, chairs, lounges, and a warming gas fireplace create an ideal space for your group to relax and unwind after a busy day.

# SPINDRIFT INN

652 Cannery Row  
Monterey, California 93940

The romantic, oceanfront Spindrift Inn is located in the heart of Cannery Row. This bastion of luxury and romance was named in TripAdvisor top ten 'Best for Romance in the U. S.' for three consecutive years, 2010-2012. The Spindrift Inn is a quaint property modeled after intimate, European inns, and has been extravagantly detailed to provide guests with an incomparable experience.

The Spindrift Inn is proud to have earned a national Green Seal Silver Certification for waste minimization, water and energy efficiency, hazardous substances handling, and environmentally responsible purchasing.

Conveniently nestled on the shores of McAbee Beach, right on world-famous Cannery Row, Spindrift Inn guests can walk the historic one mile stretch made popular by John Steinbeck's novel, Cannery Row.

## **ACCOMMODATIONS**

Guestrooms are uniquely decorated and include a wood-burning fireplace, nightly turndown service, marble-topped honor bar, Keurig Single-Cup coffee makers, 50-inch flat screen TV with DVD player, and CD player with iPod dock. Polished hardwood floors and custom wool area rugs are underfoot. Complimentary silver-tray continental breakfast is served in-room, and complimentary Wi-Fi is available throughout the hotel.

Custom-designed canopied feather beds, coverlets, and plush pillows deftly combine milled florals, damasks, tweeds, and silk in hues of raspberry and green-apple. Deep seated cozy chairs with ottomans create the perfect place to enjoy the wood burning, marble fireplace. Half of the guest rooms offer breathtaking ocean views, while the other half look out onto historic, and vibrant, Cannery Row.

The bathrooms feature polished Calcutta Oro marble and buffed nickel fittings. Thirsty cotton towels, Aveda personal care products, hairdryer and magnifying make-up mirror complete the picture.

The Inn's stunning lobby showcases the raspberry and green-apple hues found in the guest rooms. The massive marble, wood-burning fireplace continues to serve as the room's focal point, with new sofas, settees, ottomans and tables inviting relaxation or rousing card games. It's the perfect place to enjoy the Inn's complimentary evening wine & cheese service, featuring local favorites.

Room service is also available, as is valet parking. McAbee Beach is just steps from the hotel. We are pleased to assist you with arrangement of transportation, sightseeing tours, restaurant recommendations and reservations, and recreational activities throughout the Monterey Peninsula.

## Green Initiatives

The Inns of Monterey have initiated many policies and procedures to help achieve our goal of operating our business in support of environmental stewardship. In a nutshell, here are 20 Ways We've Gone Green.

1. Recycling: You will find recycling containers throughout the property - offices, meetings, public space, guestrooms, everywhere!
2. Safe Chemical Handling: Our chemical storage and mixing areas are secure and provide adequate drainage and ventilation, to help maintain indoor air quality.
3. Paper Waste Reduction Program: We reduce waste and reuse materials when possible. As an example, copiers and printers are set to duplex printing, and single-sided pages are reused for scratch pads and draft printing.
4. Bulk Purchasing: We purchase items in bulk whenever possible. This reduces packaging and decreases carbon emissions related to shipping and transportation.
5. Amenity Donations: We donate rather than discard. Usable leftover guest amenities are donated to local shelters.
6. Integrated Pest Management: We've implemented an Integrated Pest Management program, which is an environmentally sensitive approach to controlling pests that reduces risk of harm to humans and natural habitats.
7. Minimized Use of Disposable Items: We have reduced the use of disposable food service items. Disposable items are provided only for "to-go" requests, and employees must use re-usable cups and utensils.
8. Energy Efficient Equipment: We are committed to purchasing the most energy efficient options possible upon replacing equipment (Energy Star rated if possible).
9. Energy Efficient Lighting: We've installed energy efficient lighting. CFLs use 65%-75% less energy than incandescent bulbs, and last up to 10 times longer.
10. Preventive Maintenance: We follow preventive maintenance schedules to monitor and track efficiency of HVAC and operating equipment. Timely calibration and adjustments save energy and money.
11. Low-Flow Plumbing: We've installed water conserving plumbing fixtures, which use 30% less water than traditional fixtures.
12. Water-Conserving Landscaping: Plants are drought resistant, with watering procedures focused on conservation. Watering takes place only in the mornings or evenings, to reduce evaporation.
13. Towel/Linen Reuse Program: We give guests the option to participate in our towel and linen reuse program, which saves water, chemical usage and energy.
14. Water Efficient Equipment Practices: We train employees on the efficient use of laundry and dish cleaning machines, to save water and energy.
15. Eco-friendly Cleaning Products: We use environmentally friendly cleaning services and products (non-phosphate, nontoxic, and biodegradable, concentrated).
16. Low VOC Products: We use products that have a low VOC content (volatile organic compounds), which helps maintain indoor air quality and preserve employee and guest health and well-being.
17. Environmental Purchasing Policy: We train employees to follow an Environmental Purchasing Policy, which ensures products are the greenest feasible choices.
18. Recycled Paper Products: We use paper products that contain post consumer recycled content, both writing and consumable paper.
19. Durable Goods: We select furnishings and equipment that are durable to allow for refinishing, reupholstering, refurbishing or recycling.
20. Preferred Vendors: We give preference to environmentally conscious vendors who reduce, reuse and take back packaging.
